

"Salutations!" Says Wolfner Director Janet Caruthers

Winter and spring leave us behind, and the heat of summer starts to arrive. My favorite spring flowers fade away to be replaced with summer fruits and veggies, and critters come out for their summer adventures. Each creature I pass outside reminds me of the beloved stories Charlotte and Wilbur, Stuart Little, Mr. Toad and more. These characters have humble beginnings and grand adventures. They have always kept me searching for animals

around me, a summer adventure of my own, to help them on their journeys.

Each spring and summer, I especially come across turtles on my way to and from work. I share those glimpses with others, and staff have begun to keep count of each turtle. For anyone curious, the current tally is six. Now, we all share our turtle sightings along with other creatures we come across. I've heard of a frog floating around a pool like a lazy river, foxes and her kits resting under a neighbor's porch, and solitary herons gliding over lakes and rivers. The other day, I spotted nibbles taken out of my strawberries and wondered if perhaps a turtle stopped by for a quick bite before moving to bask on a sunny log.

So, let's take some notes from nature's many stories: savor the little joys of summertime and help our neighbors no matter how great or small. So, trade stories around a campfire with some s'mores, listen to the cicadas chirping in the trees, help a turtle safely cross the road, and enjoy a good book outside in the warm summer breeze.
